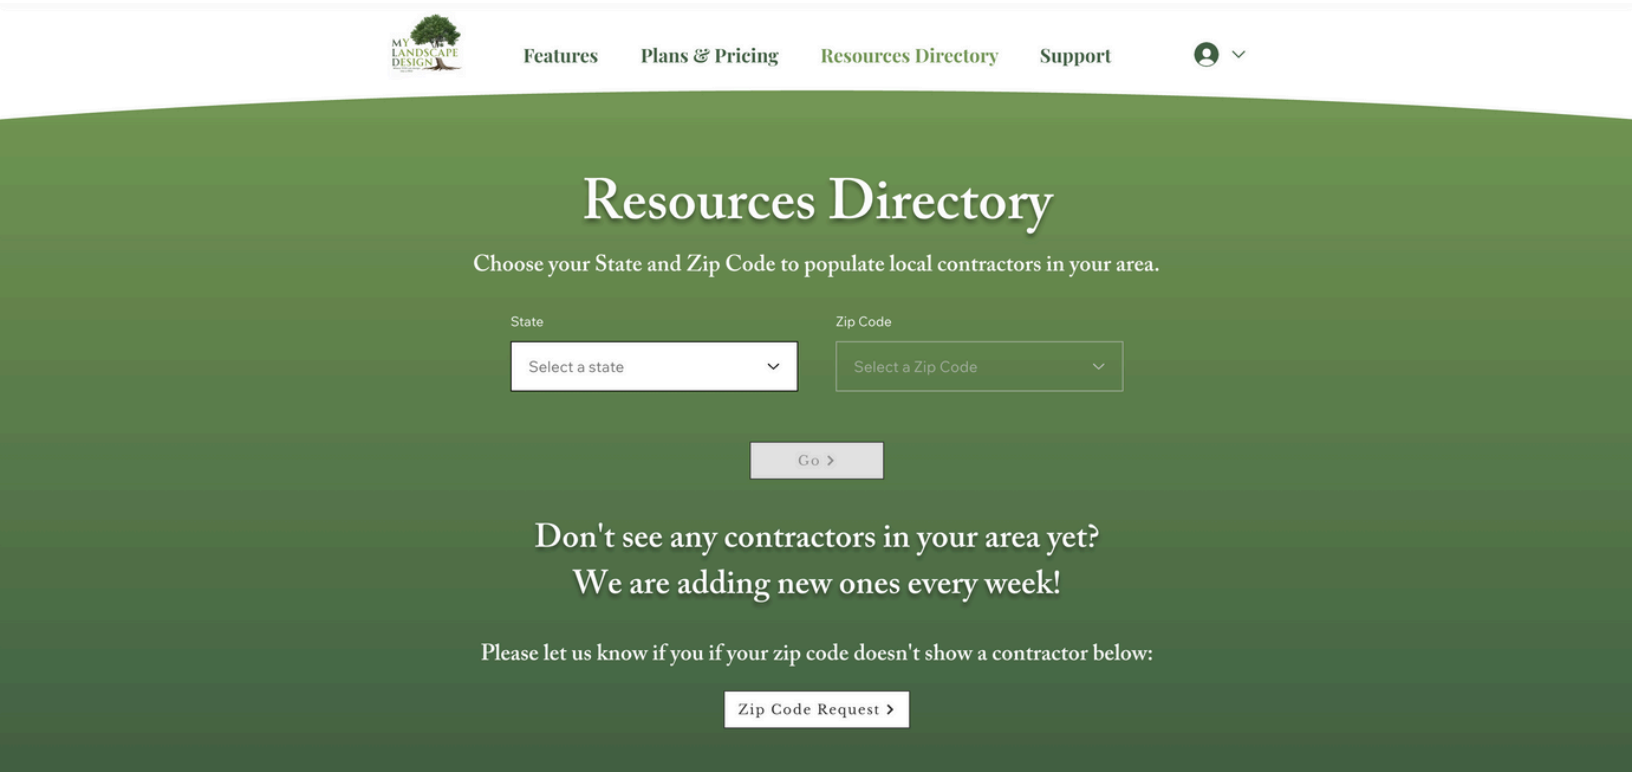
How Homeowners Find Contractors on My Landscape Design

A simple, location-based process designed to connect local homeowners with trusted landscape professionals.

User goes to website or app → **Resources Directory** → **User selects State and Zip Code** → **Local contractors appear instantly.**



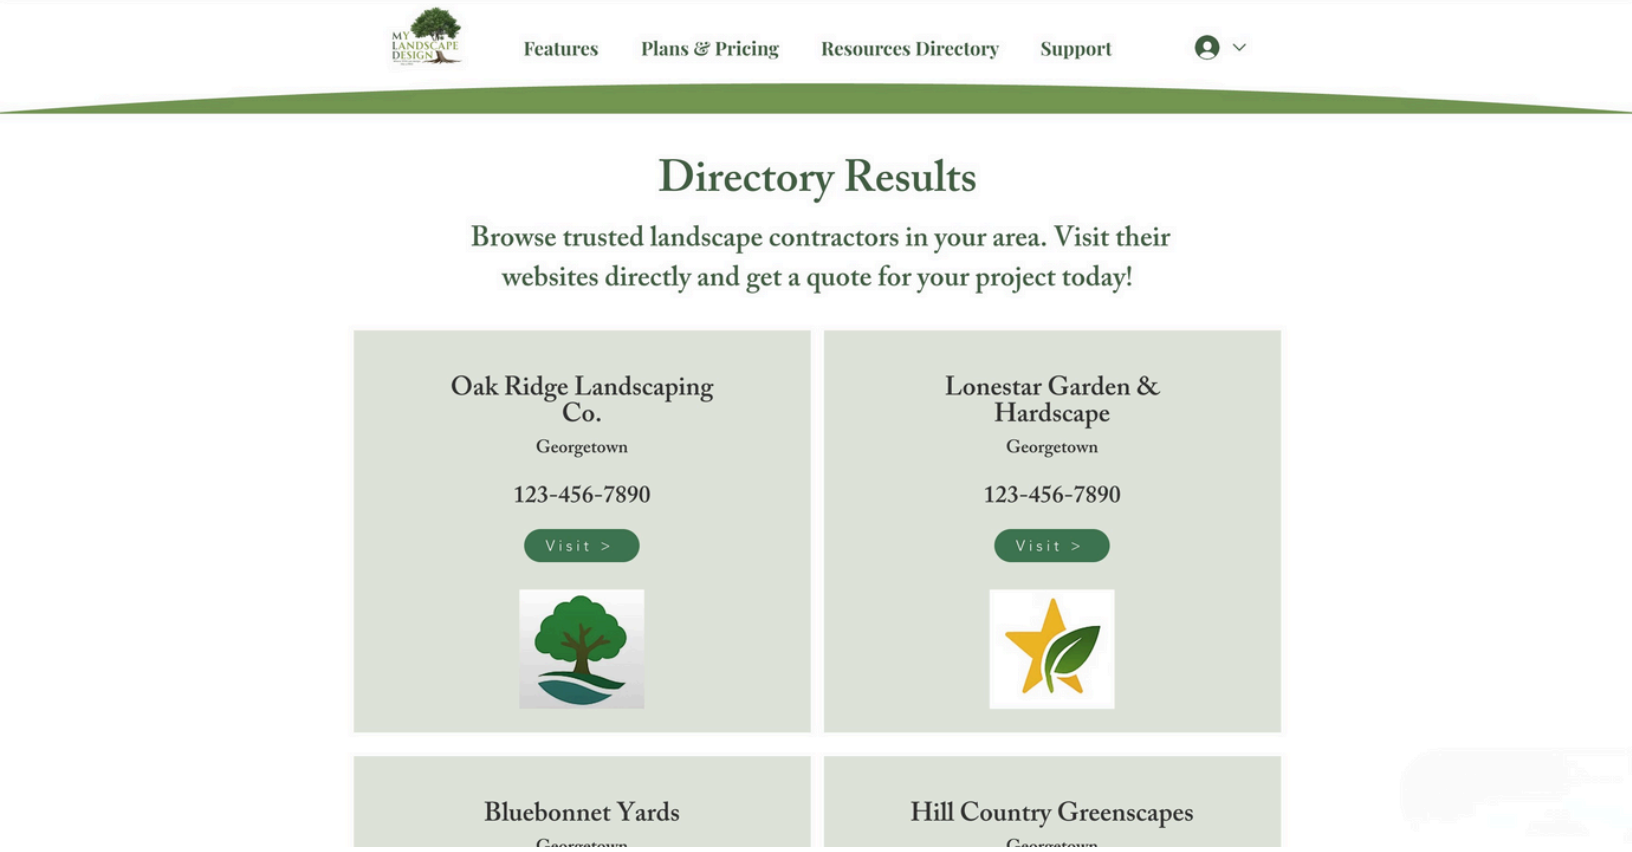
- Above is the Resources page users visit to explore or search for contractors in their area.
- The site automatically filters listings by the selected ZIP or state, showing only relevant local companies.

Directory Results for Homeowners to Find Local Contractors

Each listing shows company name, logo, phone number, and city.
Users can click for more details or contact directly.

Benefits of a Listing:

- Reaches homeowners in your specific service area
- Boosts visibility without competing statewide
- Simple contact display — no account needed for users



Above are sample listings that demonstrate how your business may be displayed within our directory.

Why Your Business Belongs Here:
Traffic & Engagement Insights
